

BLACKLINE® KOPkit Keep On Pumping Kit

BLACKLINE® KOPkits contain all replacement parts normally used in a preventative maintenance program. There is a specific KOPkit for every BLACKLINE® pump model. Each KOPkit is packaged for extended storage. All BLACKLINE® pumps have the KOPkit number identified on the pump nameplate and Pulsafeeder order documents.

How To Order:

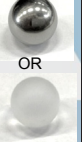

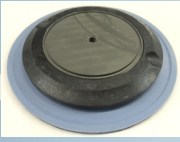

BLACKLINE® (all models) - The KOPkit number will start with the letter "K", followed by the model (the 3rd and 4th digit of the model number) and the liquid end code (the 5th, 6th, and 7th digits of the pump model number). The KOPkit for pump model number MD1AKTPN1A-XXX would be K1AE-KTP.

BLACKLINE KOPkit		
Pump Size	Wetted Material	KOPkit Number
Size 1A - 1E	PVDF	K1AE-KTP
	PP	K1AE-PPP
	Stainless	K1AE-AAS
	PVDF/Alloy C	K1AE-KMM
Size 2F	PVDF	K2F-KTP
	PP	K2F-PPP
	Stainless	K2F-AAS
	PVDF/Alloy C	K2F-KMM
Size 2G - 2H	PVDF	K2GH-KTP
	PP	K2GH-PPP
	Stainless	K2GH-AAS
	PVDF/Alloy C	K2GH-KMM
Size 3G	PVDF	K3G-KTP
	PP	K3G-PPP
	Stainless	K3G-AAS
	PVDF/Alloy C	K3G-KMM

Operating Benefits

- Reduce downtime.
- Save money by ordering a KOPkit instead of individual parts.
- Needed wetend parts for maintenance in one part number.
