

PanGuard®

Long-Lasting Drain Pan Protection

PanGuard is a certified green, time-release drain pan cleaner that continuously prevents clogs, odors, and overflows in HVAC and refrigeration condensate pans for up to six months.

CONTINUOUS CLEANING | PREVENTS CLOGS | NO RESIDUE

What's building up in your drain pan?

Clogged, dirty drain pans can lead to standing water, foul odors, corrosion, and unexpected overflows. PanGuard's time-release cleaning technology keeps pans clean and free-flowing by continually activating when water enters the pan, reducing maintenance and preventing costly issues.

Why Choose PanGuard?

Continuous Cleaning

Time-release formula activates with water to keep drain pans clean for up to six months.

Prevents Overflows

Continuously prevents buildup that leads to restricted flow and standing water.

Fights Odors & Corrosion

Keeps pans free of foul smells, improving air quality and helps prevent corroded pans.

NSF Certified & Green

Biodegradable, non-dissolving, leaves no residue, and meets strict eco-friendly guidelines.

Long-term drain pan cleaning you can set and forget
