Bio-bin® Disposal Containers

REDUCE cost, weight, transport, CO2 emissions and storage space

The ideal solution for biohazard or non-hazardous waste.

- Space efficient, light weight fold-flat design
- Built-in lid and handles
- Stackable post use
- UN 3291 approved
- Temporary and permanent seals
- Waterproof construction
- Autoclavable
- Supplied with 2 x 2" Biohazard Waste Labels
- Printed user instructions and user ID/date information on lid
- Built-in super absorbent Bio-matt™ to soak up any excess liquid
- Reorder information printed on box

Bio-bins® are a cost effective and convenient alternative to rigid plastic waste collection and disposal containers. They are ideal for use in academic, clinical, government & industrial laboratories for a wide range of non-sharps biomedical and laboratory waste that require special heat treatment such as autoclaving or incineration before final disposal.

Common items such as microbiological loops, pipettes, tips, test tubes, swabs and vials are ideal for disposal using this method.

PRODUCT	DESCRIPTION	UOM	CODE
Bio-bin®	2.5L Loop Model	CS/50	797303-0002
