Certificate of Conformity for

2000 ML Koflo Calibration Column

Koflo Corporation certifies the clear PVC pipe is made with virgin Polyvinyl Chloride resin conforming to ASTM D1784. The O.D. of this pipe is 3.500". The end caps are machined from Type II gray PVC material with 1" FNPT threads. The scale is printed on a Mylar label with a Mylar overlay to protect against chemical attack. The overall height of the column is 24"
