

Lovibond® Water Testing

Tintometer® Group

Pooltester Phosphate Test Kit, in plastic case

Determination of Phosphate in low concentration levels

- Highly sensitive
- Easy to use
- Futuristic design
- Highest accuracy

Part Number: 157800

Highly sensitive

With a 9 cm pathlength, this visual test kit is sensitive enough to detect low levels of phosphate in water.

Low cost

This easy-to-use, low cost, testing solution delivers accurate results for measuring the range of 0 - 1000 ppb (= 0 - 1.0 mg/l PO₄).

Pool Domestic | Pool Services

Application

Pool Water Control

Pooltester Phosphate Test Kit, in plastic case

Does your pool have an algae problem? Algae growth is often a result of phosphate in the pool water. In order to combat the issue, a phosphate binding material can be added to the water, combined with a routine practice of monitoring phosphate levels in the pool. It is important that the solution you choose can accurately detect the low concentration of

200 µg/l PO₄, the level at which an algae bloom can occur.

The Lovibond® Phosphate test kit is up to the task!

Measuring Range

Test Name	Measuring Range
Phosphate	0 - 1000 ppb

Delivery Scope

- Colour card
- Stirring rod, length 13 cm
- Test vial & stopper
- 30 Phosphate No.1 tablets
- 30 Phosphate No.2 tablets
- Instruction Manual
